

Bonal International Reports Second Quarter and Six Month Results

Vibratory Stress Relief Technology Leader Profits by Developing International Markets During U.S. Recession

Royal Oak, Mich., November 9, 2009 – Bonal International, Inc. (OTC: BONL) announced significant upturns in revenue in the second fiscal quarter of 2010, ending Sept. 30 2009, with \$555,613 in sales, for an increase of 57.3 percent over the 2009 fiscal second quarter net revenue. Earnings per share increased to four cents year over year.

“Bonal’s emphasis on developing international markets is continuing to produce results,” said A. George Hebel, III, CEO and president of Bonal International. “As the world moves toward cost and fuel efficient alternatives, Meta-Lax Technology fulfills the needs of industry.” Approximately 42 percent of Bonal’s sales during the quarter ending Sept. 30, 2009 came from international sales, a significant increase from the second quarter of last year with 31 percent.

In the six months to date at Sept. 30, net revenue was down slightly to \$907,440, from \$955,142 last year. Total earnings per share at the end of the six month period are two cents per share.
