

META-LAX[®] MINUTE

Mold Makers

BEITER MOLDMAKING,
GERMANY

Headlight Mold

Meta-Lax stress relief helped Beiter Moldmaking overcome a costly cracking problem for their European automotive customers in these intricate designed molds, "Since we began implementing the Meta-Lax process, no more hardness crack have appeared," said August Beiter.

MINCO TOOL & MOLD, OH

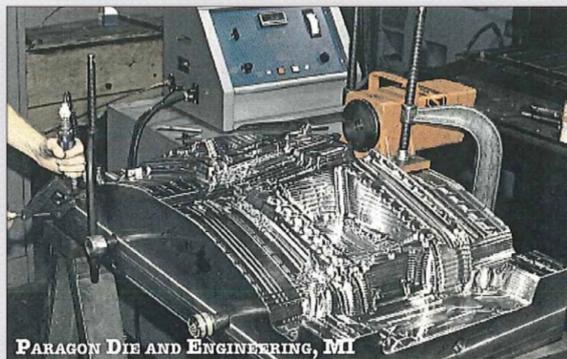

Consumer Product Mold

Meta-Lax stress relief has helped Minco Tool maintain an "on time every time" corporate policy. Besides saving 3-5 days stress relief time, many blocks are Meta-Lax treated after finish machining. This is to assure a completely stress relieved block," said Don Paulus.

YOUR STRESS RELIEF ALTERNATIVE

Meta-Lax stress relief has allowed Paragon Die to safely cut expenses and three days lead time yet still maintain their high standard of quality.

"We have virtually eliminated our heat treat stress relief costs without sacrificing quality," said Lewis Glashower.
